Once approved, course is published, all registered users can view the courses that are available to be taught. Instructors can now apply to teach the course.

Instructors can apply (all gifted must approve instructors) – instructors can be registered user.

Once All gifted approves the instructor, the class is formed and registered users can now enroll in the class.

We start off every student at level 0 for every subject, to level up, they either take a course or a test. Courses based upon their current level is pushed/will be displayed to the student their homepage.

Student can only enroll in courses where they have the pre-req, and paid. When enrolled a board in the class is created.

In the board:

- Progress report (framework = Maxile, Lexile)
- Start date
- End Date
- Payment Details
- ...

In a class

Responsibility of the instructor / what the instructor can do:
