

## Things to deliver for system

1. Performance tuning – using Azure webrole - Martin
2. Payment on registration for course - Pamela
3. Fix my profile to be the same as the specs given - Martin
4. Payment structure - Martin
5. Integration of ebook to course system into Moodle - Martin
6. User Role structure at course level - Martin
7. Implementation
8. Backup plan
9. Configuration
10. Add Lesson Format - Martin
11. Add cost to courses and paypal payment - Pamela
12. Cron job schedule – every 10 minutes - Martin
13. Students' results in a Lexile level in a page
14. Instructor to upload results
15. Sort programs by levels, by age
16. Get picture from Facebook
17. New fields in course:
  - a. Add Lexile level or Maxile level for each course
  - b. Privacy and Follow – Level user, course, student in a course
  - c. Pre-req checks
  - d. Follow component – where parents/teachers can follow
  - e. Follow instructor/star students – new table
  - f. Course pre-req and objective levels
  - g. Privacy of collaterals such as student notes etc
  - h.

HOME / SITE ADMINISTRATION / USERS / PERMISSIONS / DEFINE ROLES

Manage roles Allow role assignments Allow role overrides Allow role switches

Select which roles a user may switch to, based on which roles they already have. In addition to an entry in this table, a user must also have the moodle/role-switchroles capability to be able to switch. Note that it is only possible to switch to roles that have the moodle/course-view capability, and that do not have the moodle/site-doanything capability, so some columns in this table are disabled.

	Manager	Course creator	Teacher	Non-editing teacher	Student	Guest	Authenticated user	Authenticated user on frontpage
Manager	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Course creator	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Teacher	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Non-editing teacher	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Student	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Authenticated user	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Authenticated user on frontpage	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Save changes

Role has to change by per course, not sitewide. These roles are fine, just that the roles should apply differently for different course.

HOME / SITE ADMINISTRATION / COURSES / COURSE DEFAULT SETTINGS

### Course default settings

Visible  Default: Show  
moodlecourse | visible  
This setting determines whether the course appears in the list of courses. Apart from teachers and administrators, users are not allowed to enter the course.

**Course format**  
moodlecourse | format

Format  Default: Weekly format  
Single activity format displayed in this format.  
Social format  
Topics format  
Weekly format  Default: 52

Maximum number of sections  
moodlecourse | maxsections  
The maximum value in the number of sections dropdown menu (applies to certain course formats only).

Number of sections  
moodlecourse | numsections  
 Default: 10  
Number of sections in the course (applies to certain course formats only).

Hidden sections  
moodlecourse | hiddensections  
 Default: Hidden sections are shown in collapsed form  
How the hidden sections in the course are displayed to students.

Course layout  
moodlecourse | coursedisplay  
 Default: Show all sections on one page  
This setting determines whether the whole course is displayed on one page or split over several pages.

**Appearance**

Force language  Default: Do not force

Add a lesson by lesson format, seminar format

To restart apache2:

1. "sudo -s"
2. sudo /opt/bitnami/ctlscript.sh restart apache

Course:

The screenshot shows the Allgifted Moodle course administration interface. The top navigation bar includes the Allgifted logo, a language dropdown set to 'English (en)', and a 'My Dashboard' link. The user is logged in as 'Admin User'. The main content area is titled 'Manage course formats' and displays a table of available course formats.

Name	Enable	Up/Down	Uninstall	Settings
Single activity format	Default	↓		Settings
Social format	☐	↑ ↓	Uninstall	
Topics format	☐	↑ ↓	Uninstall	
Weekly format	☐	↑	Uninstall	

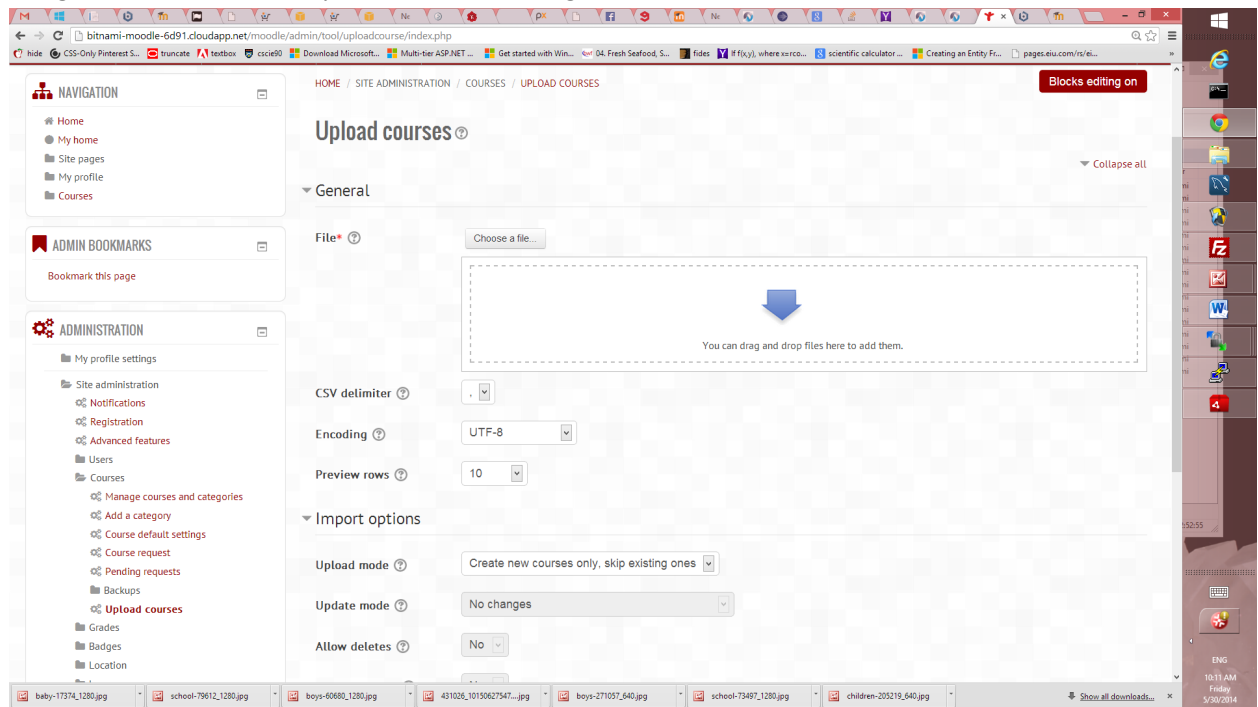

Below the table, a message states: 'Default format can be changed in Course default settings'.

The left sidebar contains navigation links for Home, My home, Site pages, My profile, and Courses. The 'ADMINISTRATION' section is expanded, showing links for My profile settings, Site administration, Notifications, Registration, Advanced features, Users, Courses, Grades, Badges, Location, and Language.

Add a new format: Lesson Format

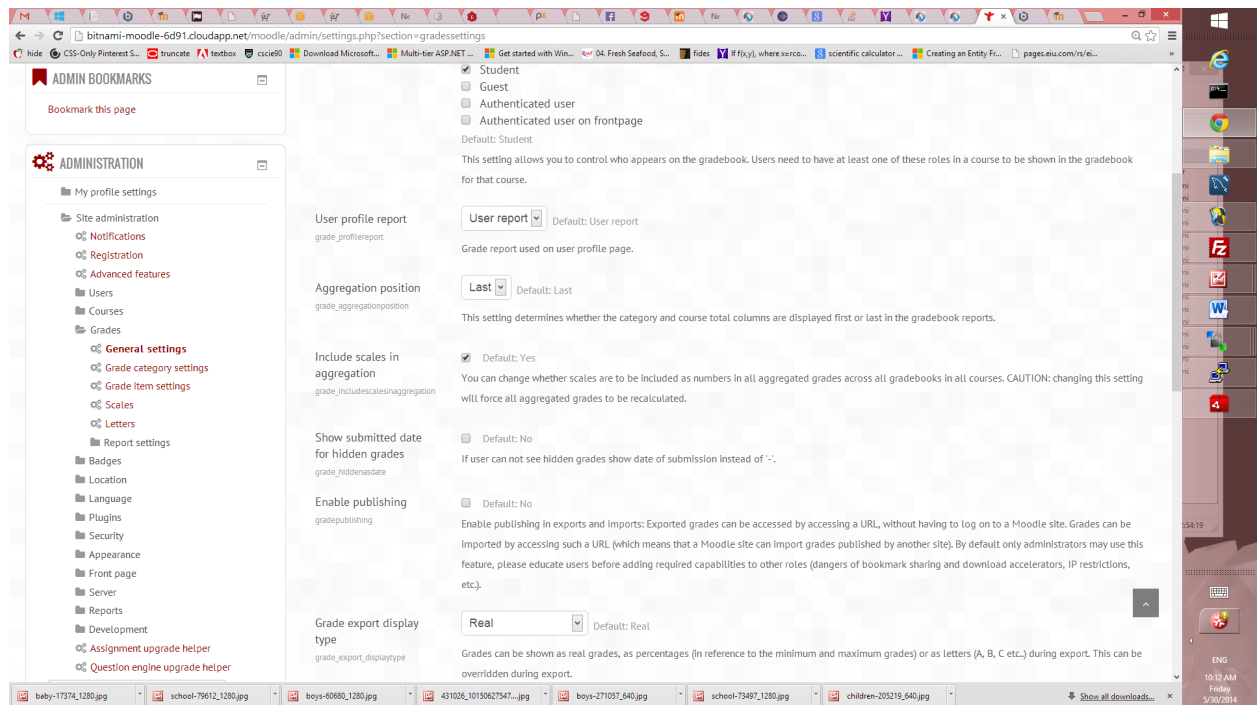

Follow, privacy

Integrate this to the PHP system created through ebook:

Grade:

1. Need to set the framework: e.g. Lexile, Maxile etc
2. Need to show a history of grades for each course
3. Grades are in the scale of 200 to 1600 and has a date to each

The scale should be just a number followed by the level, e.g. 200-350 is Grade 1 equivalent

The screenshot shows the 'allgifted' Moodle site administration interface. The top navigation bar includes the site name 'allgifted', language 'English (en)', and user status 'You are logged in as Admin User (Log out)'. The breadcrumb trail indicates the current location: 'HOME / SITE ADMINISTRATION / GRADES / SCALES'. A red 'Blocks editing on' button is visible in the top right.

The left sidebar contains three main sections: 'NAVIGATION' with links to Home, My home, Site pages, My profile, and Courses; 'ADMIN BOOKMARKS' with a 'Bookmark this page' link; and 'ADMINISTRATION' with a tree view of site settings including My profile settings, Site administration (Notifications, Registration, Advanced features, Users, Courses, Grades), and Grades (General settings, Grade category settings, Grade item settings, Scales, Letters).

The main content area is titled 'Scale' and contains the following fields:

- Name\***: A text input field containing 'Lexile'.
- Standard scale**: A checkbox that is checked.
- Scale\***: A text input field that is currently empty.
- Description**: A rich text editor with a toolbar showing Paragraph, Bold (B), Italic (I), List, Link, and other options. The description area is empty.

At the bottom of the main content area, there is a 'Path: p' label. The bottom of the browser window shows a taskbar with several open image files, including 'baby-177374\_1280.jpg', 'school-79612\_1280.jpg', 'boys-60680\_1280.jpg', '431026\_10150627547...jpg', 'boys-271057\_640.jpg', 'school-73497\_1280.jpg', and 'children-205219\_640.jpg'. The system clock in the bottom right corner shows 'ENG 10:39 AM Friday 5/30/2014'.
